

Returning AFGUARD® EWS for Recertification

Instructions

Please follow the instructions below for quick processing of your return request:

1. For presentation to the designated carrier and customs, use the proforma invoice form in Appendix 1. This document must be sent to our shipping department (versand@faudi-aviation.com) for review and confirmation in advance of any shipment.
2. Pack the goods completely and securely for transport. Use only the robust AFGUARD® custom case provided by FAUDI Aviation¹. The AFGUARD® EWS is equipped with a cover over the sensitive front part as standard.
If the case and/or cover is lost, please contact your local distributor to order a replacement. Any AFGUARD® EWS that arrives in different packaging will be returned in a new FAUDI Aviation certified package at the sender's expense.
3. Any possible contamination of equipment and components must be communicated by sending the following "Declaration of Contamination" form in Appendix 2 together with the AFGUARD® EWS to be recertified.

Additional costs for shipping and/or customs clearance and/or incurred by not following the return process specified by FAUDI Aviation will be added to the recertification costs.

Declaration of Decontamination

Electronic Sensor

Due to legal regulations and for the safety of our employees and operating equipment, we require this "Declaration of Decontamination" with your signature before your order can be processed. Please enclose the fully completed declaration with the equipment and shipping documents in any case. If necessary, also enclose safety data sheets and / or special instructions for action.
